

COMPLAINTS PROCEDURE

The Diabetes Research & Wellness Foundation (DRWF) is committed to providing a quality service, which means we listen and respond to the views of those people who are using or going to use our services.

To enable us to improve the services we offer, we welcome both positive and negative feedback.

We feel it is important to make our complaints procedure as clear and as easy as possible. Therefore, we aim to ensure that,

- we have a published Complaints Procedure;
- we treat any verbal (telephone or in person) or written (letter, fax, or email) complaint (notification of dissatisfaction) seriously;
- we resolve complaints quickly and amicably;
- we respond in an appropriate and honest way, apologising when we get something wrong; giving an explanation where required and informing the complainant of the action being taken to address;
- we use all complaints as a learning curve to ensure we continue to offer the quality service that our stakeholders and beneficiaries expect and deserve

- We will reply within 14 days to a written complaint and if for some reason, it is going to take longer than this, we will let you know with an explanation of why
